Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 25 March 2003.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 17-20 is/are pending in the application.

DETAILED ACTION

This second Office Action is in response to Applicant's Amendment received on March 25, 2003 in this case.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 17-20 are rejected under 35 U.S.C. 103(a) as being unpatentable over Steffen (4,037,527) in view of Joy (3,785,271). Steffen teaches, substantially, each feature of the claimed invention as shown in the red marked up copy of Steffen's Figure 3 attached to the Office Action of November 19, 2002. Steffen, however, does not teach an opening in the wall. Joy teaches an opening in the wall as shown in the red marked up copy of Joy's Figure 4 attached to the Office Action of November 19, 2002. It would have been obvious to one of ordinary skill in the art at the time of invention to have made an opening in Steffen's wall in order to pass, for example, electrical wires for supplying a socket with electricity for use in Steffen's bin (10) as taught by Joy. Regarding claim 4, it is well known to provide slots in place of holes for flexibility of fastening of flanges.

Examiner's Response to Applicant's Remarks

Applicant's arguments regarding claims 17-20 have been considered but are not persuasive. Applicant argues that Steffen '527 is nonanalogous art and that Steffen does not teach an exhaust fan.

Regarding Applicant's analogous art assertion, Steffen teaches a solution to the same problem the present invention seeks to solve. The problem is mounting a flanged fan to a manway (perhaps of a different diameter as the flange). Steffen teaches a flange structure mountable to the manway and the fan as claimed.

Regarding Applicant's exhaust fan assertion, Steffen teaches a fan to generate flow into the bin by pushing outside air through the bin. The outside air inherently must be exhausted from the bin to encourage flow (for example, out through 13). Therefore an exhaust fan may pull air out or push air out as long as the air is flowing out.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
